

EOC & Dental Playground — AI-Powered Benefits Analyzer

Release Version: 1.0 | HealthWorksAI | Beta Release

Overview

The **EOC & Dental Playground** marks HealthWorksAI's milestone in enabling intuitive, AI-driven analysis of Evidence of Coverage (EOC) documents for Medicare Advantage plans. Backed by a RAG (Retrieval-Augmented Generation) engine grounded directly in source EOC files, this tool enables analysts and plan teams to query, explore, and compare Medicare Advantage benefits through a conversational interface — built similar to ChatGPT or Copilot, but purpose-built for EOC benefit data.

In this version, you get access to **898 EOC documents** spanning multiple payors, states, plan types, and SNP types. Every AI response is citation-grounded — each answer traces back to specific passages in the source EOC files so you can verify accuracy instantly.

* This tool is designed for supplemental benefit analysis from EOC documents. For PBP-structured data queries, enrollment trends, or predictive analytics, please refer to GenieAI or reach out to the HealthWorksAI team.

Data Coverage Summary

- **EOC Documents:** 898 documents available (Medicare Advantage plans)
- **Filter Dimensions:** Sales Region, Payor, State, County, Plan Type, SNP Type, Plan Name
- **Benefit Groups Covered (9 categories):**

#	Benefit Category	Key Data Points Extracted
1	OTC & Flex Card	Buying limits, card/wallet name, flex eligible products & services, allowance amount, OTC vendor, network requirement, wallet type
2	Dental	Covered services, copay/coinsurance, annual max, cap structure, frequency limits, prior auth, vendor/network, exclusions
3	Vision	Exam copay, diabetic eye exam copay, allowance, frequency limits, included items, vision care provider, exclusions
4	Hearing	Aid benefit/allowance, premium aids cost share, batteries per aid, battery supply, trial period, warranty, vendor, exclusions
5	Meals & Grocery	Post-discharge meals count/window/copay, grocery allowance, food wallet, eligible food items, vendor, delivery method, carryover
6	Telehealth	Eligible modalities, modality-specific costshare, platform/vendor, virtual PCP/specialist/PT copay, covered language

#	Benefit Category	Key Data Points Extracted
7	Transportation	Geographic limitation, cancelling window, mileage limit, transport vendor, transport type, copay, scheduling window, rideshare
8	Fitness, Wellness & In-Home	Gym/fitness covered services, access methods, usage limits, in-home support services, bundled perks, vendor
9	SSBCI / UF Benefits	General support for living, eligibility criteria, food & produce/grocery card, SSBCI/VBID covered language, vendor, exclusions, wallet structure

✓ Key Features

- **RAG-Powered Responses:** Every answer is grounded in source EOC documents with citations — no hallucinations, fully traceable.
- **Quick Insights (9 categories):** One-click deep-dive analyses across benefit categories. Hover over any chip to preview the analysis scope before running.
- **Multi-Plan Comparison:** Narrow to 1–4 plans using filters for focused, side-by-side benefit comparisons in a structured table.
- **Download Center:** Browse and download EOC files directly from the interface.
- **PC Integration:** Connect with the Plan Comparison module via the "Integrate PC" toggle for cross-tool workflows.
- **Flexible Filtering:** Slice the document corpus by Sales Region, Payor, State, County, Plan Type, SNP Type, or Plan Name before querying.

Features and Functionalities

- Filter and narrow plans using 6 independent dimension selectors
- Hover Quick Insight chips to preview description, tags, and plan count before running
- Click any Quick Insight to instantly generate a structured comparison table across selected plans
- Ask free-form follow-up questions about any benefit detail in the same conversation thread
- Citations displayed in responses — click to trace answers back to the source EOC passage
- Download EOC source files directly from the Download Center panel
- Stats banner shows filtered vs. total document scope at a glance (e.g., "898 documents / 898 EOCs available")
- Conversation history automatically maintained within the session

Use Cases Supported

- **Benefit benchmarking across plans**
 - Compare OTC allowance amounts and wallet structures across all plans in a state

- What is the average hearing aid allowance for D-SNP plans in Florida in 2026?
- **Supplemental benefit deep-dives**
 - Summarize SSBCI eligibility criteria and grocery card details for plans in scope
 - Which plans offer rideshare as part of their Transportation benefit?
- **Telehealth and virtual care analysis**
 - Compare virtual PCP copays and eligible modalities across selected plans
- **Dental/Vision/Hearing comparison**
 - What is the dental financial cap structure — combined vs. separate — for these plans?
 - Do any plans cover advanced/premium hearing aids with a trial period?
- **Post-discharge meals and grocery allowance review**
 - How many post-discharge meals are covered and over what window?
- **EOC file retrieval**
 - Download source EOC documents for any plan via the Download Center

Usage Guidelines

Do's

- Narrow to **1–4 plans** using filters before running Quick Insights for focused, accurate comparisons
- Use specific plan names, payors, or geographies to target the right document subset
- Ask follow-up questions within the same conversation to drill deeper into a benefit
- Cross-reference the **citation links** in responses to verify against the source EOC
- Use the **Download Center** to pull raw EOC files for in-depth review

Don'ts

- Avoid running Quick Insights with all 898 plans in scope — accuracy improves significantly with a focused subset
- Do not rely on responses for regulatory filings or actuarial computations
- Avoid vague or ambiguous queries without specifying plan or benefit context
- Do not treat AI responses as final without checking the cited source passages

Access Instructions

- 1 Log in to the HealthWorksAI portal and navigate to the EOC & Dental Playground module
- 2 Use the filter bar at the top to select your Sales Region, Payor, State, Plan Type, SNP Type, and/or Plan Name

- 3 Choose one of two modes:
- 4 **Quick Insights** — hover over a benefit chip and click to run an instant structured comparison
- 5 **Free-form query** — type your question in the chat bar and press Ask
- 6 Review the AI response, follow citations to source EOC passages, and ask follow-up questions as needed
- 7 Use the **Download Center** (bottom-left) to access raw EOC files for any plan

Reporting & Feedback

Your Feedback is Important

We are continuously improving extraction accuracy across all benefit categories. If you notice a response that is incorrect, incomplete, or missing a data point, please flag it — your inputs directly shape the next iteration of prompt tuning and retrieval improvements.

You can reach out to us at: **SAMTeam@healthworksai.com**

Acknowledgements

Thank you for being an early user of the EOC & Dental Playground. Your feedback in this Beta phase is invaluable as we evolve toward a future where Medicare EOC analysis is as simple as a conversation. We look forward to your continued partnership.

— **HealthWorksAI Team**
